More than Floor

Our family run company is devoted to providing the best quality interior surface decor products and services, along with expert advice and after-care, whilst Ensuring that we are as environmentally friendly as possible in our product range of hardwoods and stones.

Either choosing flooring or wall panelling, all of our hardwood products are custom manufactured and finished in the United Kingdom.

The UK's largest Oak flooring collection; we supply over 40 Shades in 13 different design patterns, and many differing plank specifications. Our Oak floors are perfectly at home in both domestic or commercial settings.

We offer the latest technologies in water resistant flooring for wet areas throughout the home and workplace, in a range of colours and true-to-life surface designs.

To compliment our flooring, we manufacture acoustic dampening and solid, wall and ceiling décor panels in a large range of Oak or real stone veneers which offer endless design options to bring a true Scandi Design aesthetic to interiors.

As a manufacturer, we can also offer a colour-matching service to most of our hardwood materials so that our products, are truly at home, in your home.

Definition of Made in Britain: Brand and Product Names do not indicate origin of product. Products can be partially produced in the UK and partially produced in factories outside of the UK incorporating finishing or assembly.

Hardwood Oak Patterns

Barham and Sons Engineered Oak flooring collections are produced with European White Oak in a range of grades from Select to Antique Rustic and all finished with a treated pressure applied UV Oil surface coating in our Suffolk, UK based factory.

Hardwood Grading

Sonus Oak Wall Décor Panels

Sonus Acoustic Panels are **real oak** engineered wall and ceiling decor panels for both residential or commercial settings that bring a modern Scandi aesthetic.

Manufactured in the UK, Sonus acoustic panels offer both fire retardancy and acoustic dampening properties and are available in a choice of contemporary shaded real oak veneers.

Sonus Rigid Core panels are manufactured on a High-Density Fibreboard (HDF) backing for areas where acoustic dampening is not required. These panels though offer greater strength.

Sonus Sawmill Wall Décor Panels

Sonus Sawmill Acoustic Panels are **real oak** engineered wall and ceiling decor panels for both residential or commercial settings that bring a modern Scandi aesthetic.

Manufactured in the UK, Sonus panels offer both fire retardancy and acoustic dampening properties and are available in a choice of contemporary shaded real oak veneers.

Our Sawmill Range offers a greater slat depth of 19mm including a 4mm veneer, which is finished with a true sawmill cross-sawn texture unique to our UK production.

Sonus Stone Wall Décor Panels

Sonus Acoustic Panels are wall and ceiling decor panels for both residential or commercial settings that bring a modern Scandi aesthetic.

Manufactured in the UK, Sonus acoustic panels offer both fire retardancy and acoustic dampening properties and are available in a choice of contemporary shaded real stone micro-veneers.

Sonus Rigid Core panels are manufactured on a High-Density Fibreboard (HDF) backing for areas where acoustic dampening is not required. These panels though offer greater strength.

SONUS
ACOUSTIC & DECOR PANELS

Sonus Faux Oak Wall Décor Panels

Sonus Faux Oak Panels are wall and ceiling decor panels for both residential or commercial settings that bring a modern Scandi aesthetic.

Faux Oak panels are available in a choice of contemporary shaded synthetic veneers.

Antique Oak

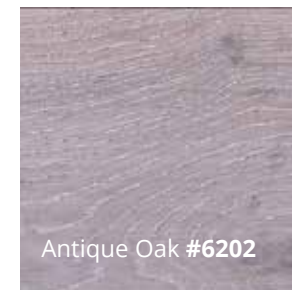

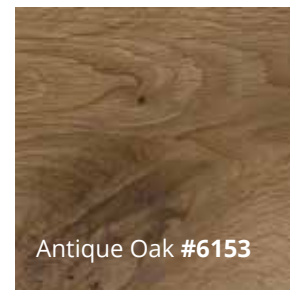

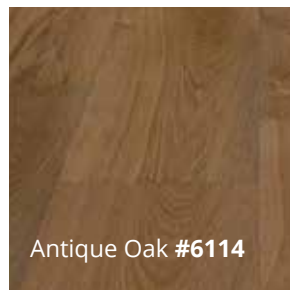

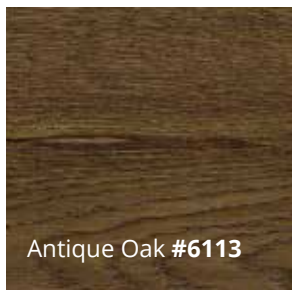

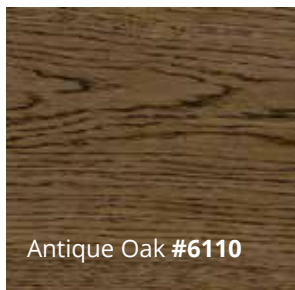

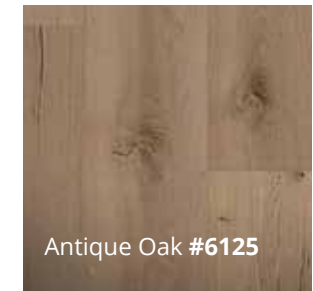

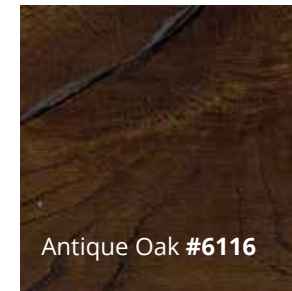

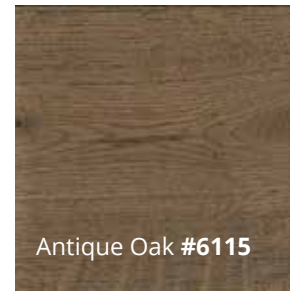

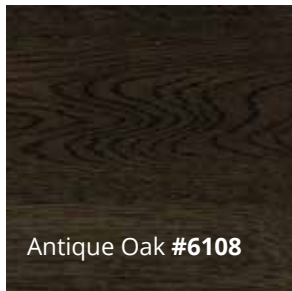

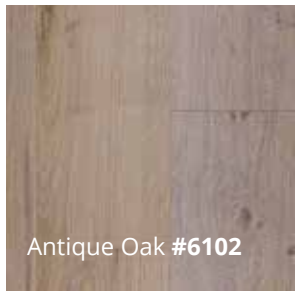

The Antique Collection focuses its tonal choices on traditional staining and ageing of bygone floors.

With a commanding width of 260mm and the added character of filled or semi-filled knots, splits, checks and cracks, the Oak Enginerred Antique Collection offers a lifetime of aesthetic joy and yesteryear.

Antique Oak #6101

Antique Sawn Oak

The Antique Sawn Collection focuses its tonal choices on traditional staining and ageing of bygone floors.

With a commanding 260mm width and added character of filled or semi-filled knots, splits, checks and cracks, and of course Saw Mill marking, the Engineered Oak Antique Collection offers a lifetime of aesthetic joy and yesteryear.

Manor Distressed Oak

Manor Distressed Oak is a hand distressed plank with tumbled edges and the tonal choices of aged bygone floors.

In essence, the Distressed Oak plank offers itself with a 'reclaimed' aesthetic creating unique floors of great character.

Lattice Weave Duo

Lattice Weave Duo parquet is a visually appealing pattern which looks as though the wood planks have been interwoven.

The Creative Duo Collection brings selected colours with a natural affinity together, adding them to Intricate parquet designs to create unique floors with character and presence.

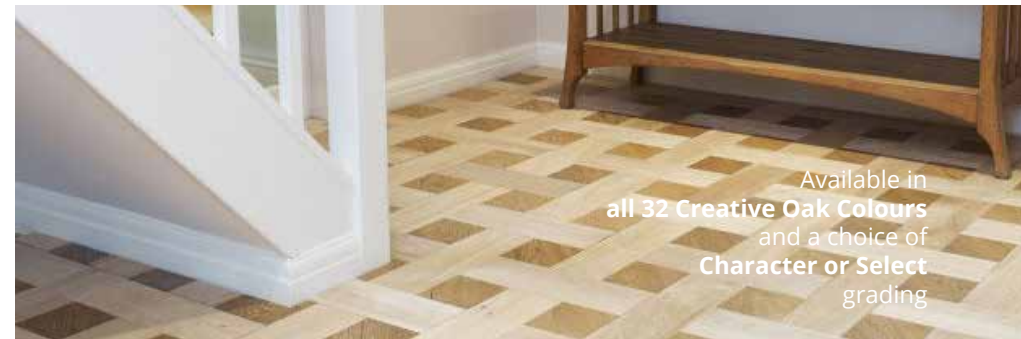

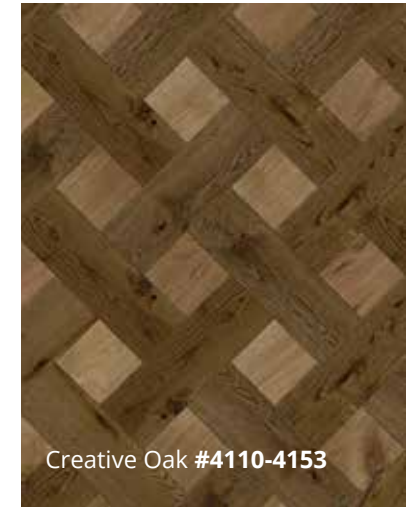

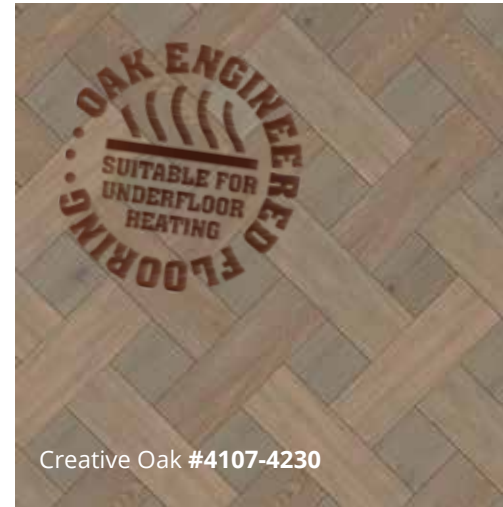

With an increased demand for contemporary designs in both domestic and commercial settings, our flooring designers have chosen tones that compliment each other perfectly to expand our parquet range further and create designs of great aesthetic impact.

Lattice Weave Parquet

Depth: 14mm
Lengths: 500mm
Wear Layer: 4mm

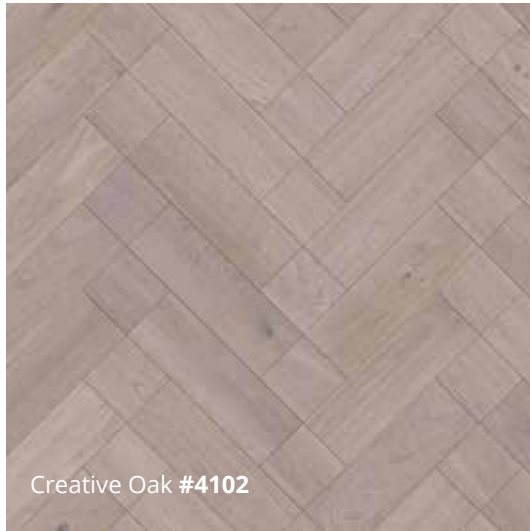

Grade: Character or Select

Chantilly Parquet

Chantilly parquet takes the traditional herringbone pattern and gives it a unique twist by adding an extra square 'block' to the pattern.

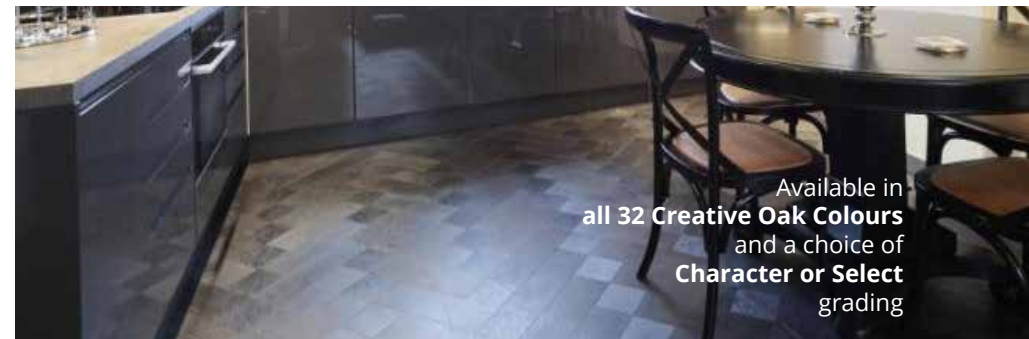

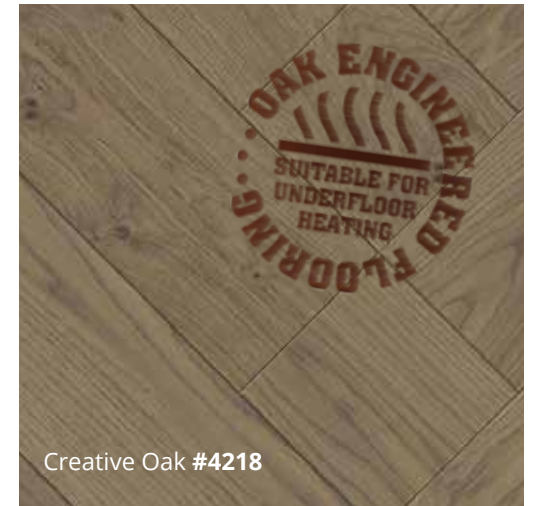

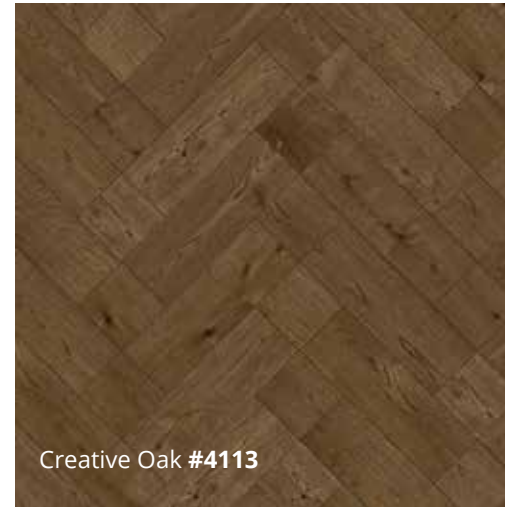

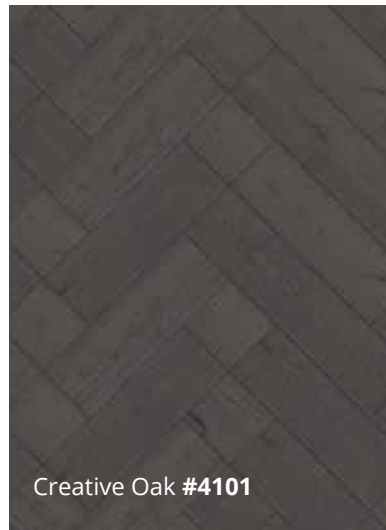

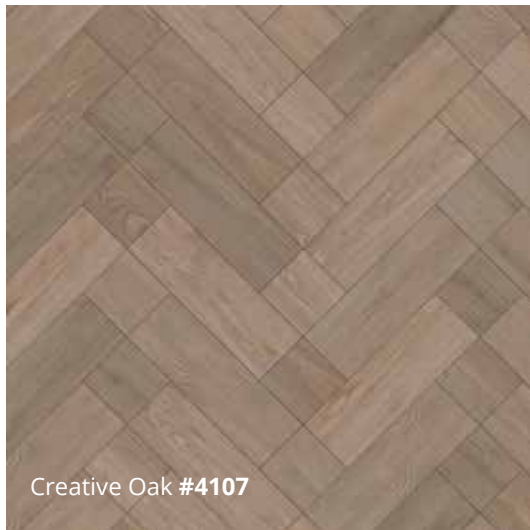

We have seen a marked interest within the design community to specify this beautiful new pattern.

Chantilly Parquet

Width: 150mm
Depth: 15mm
Lengths: 450mm
